UNIQUE FABRICS

Talius Habitat Screens are made using Thermoscreen®, a unique fabric woven from fiberglass and coated with PVC pigments. Thermoscreen® is available in 30 different colors and three different weave densities (5%, 12%, and 45%) to provide the exact design and amount of shade to suit your needs.

SPLIT SCREENS

Talius has the capability to split your Habitat Screens into multiple sections that can be operated together.

EASY OPERATION

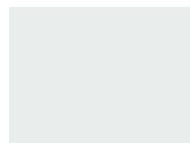

Operate your Habitat Screens with manual or motorized convenience from inside your home.

Talius also offers remote controls, sun sensors, and timers.

CHOOSE FROM A VARIETY OF COLORS

Standard panel box, guide rail and bottom profile colors:

white

beige

brown

silver

Talius also offers over 1800 custom paint options for you to choose from.

QUALITY AND SERVICE YOU CAN TRUST

You deserve the best, and TALIUS ensures that your Habitat Screen will exceed your expectations of quality, performance, and style.

For over 30 years, the TALIUS brand has been synonymous with quality and service. We take pride in developing and manufacturing the finest products to provide you with exceptional value.

"TALIUS Habitat Screens are fantastic. TALIUS delivers on quality, product, and service. I would recommend them highly to my friends."

HABITAT SCREENS FOR WINDOWS

- Preserve your view
- Keep your home cool
- Reduce air conditioning costs
- Protect furniture from fading
- Prevent hardwood floors from drying
- Protect valuable artwork from the sun

Habitat Screens are like sunglasses for your home, protecting you from the intense heat and glare of the sun. Easy to see through, and completely retractable, Habitat Screens allow you to create a cool and comfortable environment without sacrificing your scenic view.

"Anyone with south or west facing windows would benefit from TALIUS Habitat Screens. Since my Habitat Screens were installed, my home is a lot more livable, I don't have to deal with intense heat and glare, and I don't miss out on my great view. I just love them!"

HABITAT SCREENS FOR DECKS AND PATIOS

- Enjoy your patio in style
- Keep insects out
- Reduce solar heat gain
- Provide excellent daytime privacy
- Widths up to 19'8"
- Heights up to 12'

Talius' unique edge retention prevents the screen from blowing out of the guide rails on windy days and protects you from insects.

Convert your patio or balcony into a retractable screen room. Custom made for widths up to 19'8", Habitat Screens are the ideal solution for shade, insect protection, and daytime privacy.

Habitat Screens can cover very large areas, making them ideal for garage doors.

"Since we installed TALIUS Habitat Screens, the feeling of relaxation and privacy that we get from being outside on the porch has been tremendous. The porch is now like another room on the house. Instead of fighting bugs, we sit in total comfort. Whenever I sit in my screened in porch it feels like I am on vacation. I particularly like the ease with which the screens go up and down in seconds."

RONALD D. EDELMAN

THE ADVANTAGES OF EXTERIOR SHADING

- Retractable
- Energy Efficient
- Attractive

Habitat Screens are a retractable, energy efficient and attractive alternative to traditional interior blinds and window treatments.

Habitat Screens vs. Interior Window Treatments				
	Habitat Screens	Interior Blinds	Window Tinting	Interior Screens
Blocks Heat	●			
Preserves Your View	●		●	
Saves Energy	●			
Exterior Mounted	●

Blocks UV Rays	●	●	●	●
Invisible from Inside	●		●	
Easy to Clean	●		●	
Insect Screen	●			
Wind Resistant	●			
Daytime Privacy	●	●	●	●

Retractable

Habitat Screens can be adjusted to provide shade when you need it most. When not in use, the screen retracts neatly into a 5" panel box.

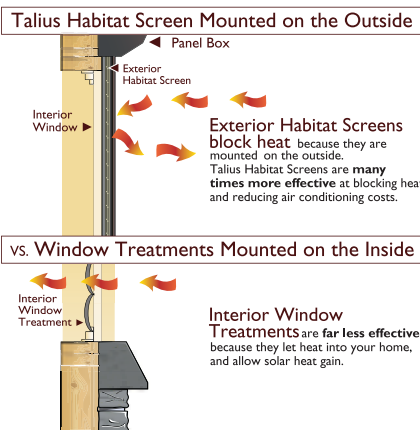

Energy Efficient

Installed on the outside of your windows, Habitat Screens are designed to absorb the sun's heat and glare before it reaches the glass. This will save you money on air conditioning costs and will protect your carpets, upholstery, and hardwood floors from the sun's harmful UV rays.

Attractive

Enhance the look of your home and be creative with your interior décor. Designed to harmonize with the exterior of your home, Habitat Screens reduce the need for blinds, drapes, or other window treatments.
